Organic Food & Vegetable Store (PRS06)

Thank you! We are glad that you have choosen us.

Here are some basics on installing, configuring and customizing the theme that will get you started! This document is written very carefully by keeping mind Beginners, advanced users and developers

very carefully by keeping mind beginners, advanced users and developers.

If you are new to prestashop. Please read PRESTASHOP GUIDE first and then get along with the theme document.

Please rate our theme and keep encouraging us!

Getting Support

In case our documentation does not serve your queries. Feel free to contact our support team. Please be sure to include your site URL as well as your admin and FTP details when you contact our support team.

Our support scope

Our support covers configurations related to the theme, trouble using any features of the theme and bug fixes with the theme. We don't provide support for customizations or 3rd party extensions.

Support response time

We try our best to serve our clients around the clock, however, this is not always possible due to different time zones. The team will try to reply you as fast as possible.

In case you ask for help in the weekend, you may have to wait a little bit for support, please be patient.

THEME INSTALLATION

Uploading Theme package

There are two options to upload a theme package.

OPTION 1

1. Open PrestaShop backoffice and navigate to **Design > Theme & Logo**.
2. Click on **Add New Theme** button at top right corner. This should navigate to Theme & Logo > Theme.

Design / Theme & Logo

Theme & Logo > Theme

 Add new theme

 Export current theme

SUPPORT

Getting Support

In case our documentation does not serve your queries. Feel free to contact our support team. Please be sure to include your site URL as well as your admin and FTP details when you contact our support team.

Our support scope

Our support covers configurations related to the theme, trouble using any features of the theme and bug fixes with the theme. We don't provide support for customizations or 3rd party extensions.

Support response time

We try our best to serve our clients around the clock, however, this is not always possible due to different time zones. The team will try to reply you as fast as possible.

In case you ask for help in the weekend, you may have to wait a little bit for support and please be patient.

Please rate our theme and keep encouraging us!

Thank You.
